

General Description and Usage

The LWM-Series LED luminaire, provides a classic appearance and delivers up to 110 lumens per watt. Its advanced LEDs deliver an expected service life of more than 10 years which eliminates the frequent lamp and ballast replacements associated with older technologies. The LWM LED replaces 120W incandescent fixtures and uses precision optics to direct light where it is needed. The LWM LED provides energy savings of up to 75% vs. comparable metal halide luminaires.

Electrical

The universal voltage driver operates on any line voltage from 120-277V (50/60Hz). Rated for outdoor installations, -25°C minimum ambient.

Optical

Prismatic glass lens is designed for superior lighting distribution, uniformity and fixture spacing.

Listings

UL certified to U.S. and Canadian standards. Design Lights Consortium® (DLC) qualified product.

Warranty

5 year limited warranty.

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.
