Industrial & Commercial Lighting

This series of dimmable, round high bays deliver high lumen output ranging from 12,000 to 30,000 lumen.
The standard 120 degree light spread guarantees intensity and uniformity.

This series is NSF certified (IP65 & IP69K ratings) featuring a smooth, diamond body design with a polycarbonate lens to insure safe, no-break performance.
Additional Features:
- Precision designed optics deliver even illumination in every environment
- Exceptional 82 CRI light
- Waterproof & dustproof

VAPOR TIGHT

IP65 linear vapor tight lighting is one of our strengths. Our LED vapor tight line includes traditional style vapor tight fixtures as well as extruded aluminum types which provide excellent heat dissipation. All of our vapor tight models incorporate a sleek modern look that allows the fixture to be used in many different applications.

Vapor Tight: IP65 / IK10 Linear

This vapor tight series is an excellent choice for a highly efficient, multi-use vapor tight solution.

The extruded aluminum body construction acts as an excellent heatsink channeling heat out and away from the LED's.

Coming in both 4-ft. and 8-ft. options, the fixtures are water and dust proof.

The diffuser is high strength polycarbonate, which in combination with the aluminum body, makes the fixture virtually indestructible.

Certifications:
- IP66
- IK10
